

# Local Landcare

*'Have your Say'*

Lithgow Oberon  
**Landcare**  
**20 YEARS**

The Lithgow Oberon Landcare Association will be conducting a series of surveys and community workshops in 2019 to find out;

## ***What do you want from Landcare?***

As the key representative organisation for Landcare in Lithgow & Oberon it's important we:

- Understand what people think Landcare is all about;
- Identify what people want Landcare to look like in the local area - both now and in the future;
- Provide a framework that increases volunteer participation in local Landcare activities;
- Develop Landcare priorities for the next five to ten years which are relevant to our local community; and
- Re-engage with Landcare Groups across the Lithgow & Oberon regions that create on-ground activity, participation and engagement.

The workshops and survey results will inform and help develop a broader Landcare Network Plan for the future delivery of Landcare locally.

Pre-workshop information and survey available at:
